## Highway Special Investigation Report: Pedal Misapplication in Heavy Vehicles

By National Transportation Safety Board

CreateSpace Independent Publishing Platform. Paperback.

Book Condition: New. This item is printed on demand.

Paperback. 56 pages. Dimensions: 11.0in. x 8.5in. x 0.1in. In May

2005, the National Transportation Safety Board (NTSB) began

its investigation of a school bus accident that occurred in

Liberty, Missouri. During the course of the investigation,

information was uncovered that suggested pedal

misapplication as a factor in the accident that is, depressing the

accelerator instead of, or in addition to, the brake pedal. The

NTSB subsequently investigated four additional accidents in

Falls Township and Newtown, Pennsylvania; Asbury Park, New

Jersey; and Nanuet, New York involving heavy vehicles in which

pedal misapplication was determined to be a factor. Despite

varying circumstances, these five accidents share common

elements. In all five, the drivers either reported a loss of

braking or were observed by vehicle occupants to be

unsuccessfully attempting to stop the vehicles, though no

evidence of braking system failure was found. This item ships

from La Vergne, TN. Paperback.
