NOVEL 11C-RADIOISOTOPE METHOD FOR CATALYSIS STUDY

LAP Lambert Academic Publishing Dez 2013, 2013. Taschenbuch. Book Condition: Neu. 220x150x4 mm. This item is printed on demand - Print on Demand Neuware - The application of radioisotope labeled molecules gives a sensitive detection method to follow adsorption, desorption and catalytic transformations even in co-reaction with non-labeled compounds. This radiolabeling technique was introduced for study of methanol transformation, first on proton and subsequently on Cs, Cu and Fe ion-exchanged aluminosilicates. This novel method was excellent to follow and analyze...

Reviews

This publication will never be straightforward to get going on looking at but really fun to see. This can be for all those who statte that there had not been a worth looking at. You wont really feel monotony at at any moment of your own time (that's what catalogs are for about should you request me).

-- **Cale Hansen Sr.**

A top quality ebook as well as the typeface used was interesting to see. It usually fails to charge an excessive amount of. Once you begin to read the book, it is extremely difficult to leave it before concluding.
