B.R. Publishing Corporation, New Delhi, India, 2009. Hardcover. Book Condition: New. Dust Jacket Condition: New. There is a lot of controversy over situating the tribals in modern Indian History. According to the Latin root, the word tribal meant only a section of people with a distinct and autonomous culture of its own. In the Roman Empire, they were never regarded segregated from the mainstream. But in colonial India the tribals who held fast to their autonomous culture and would not conform to colonial requirements were considered wild and outside the pale of civilization and therefore liable to be subjugated. To the imperialist anthropologist, it was a virgin field of enquiry to discover the tribals as exclusivist people with unique features. They were to be treated as vanishing community. It was again a play of divide and rule against the mainstream society. The Present volume is a bouquet of 11 essays on various aspects of Tribal Society and culture under British Rule. CONTENTS: 1. Situating Tribals in Modern Indian History/Surendra Jha 2. The Khasis and the English 1783-90/Nikhiles Guha 3. Rani Gaidiliu/S.K. Hira 4.
