Complete guide! Its such a great study. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

New Generation Publishing, United States, 2009. Paperback. Book Condition: New. 196 x 124 mm. Language: English . Brand New Book ***** Print on Demand *****.Here it is cogent, concise and mercifully free of kidolatriy a how-to booklet for all you graduates thinking of teaching as a career. The author describes himself as a primary school teacher, musician, potter and beekeeper . Sounds nice, but he doesn't flinch from highlighting some of the less-agreeable aspects of life at the chalkface: KS2 SATS, the National Curriculum, power-dressing head teachers, Health and Safety strictures, lying little toerags (and they're not the teaching assistants!), Ofsted inspectors and anxious parents: Why isn't our Craig reading? (Craig is twelve). Considerable interest has already been shown by teachers and others in Ian Dyer's excellent and amusing handbook, and while he offers arguments for and against teaching, it's clear from the text that he is a much-loved and respected professional in a challenging field. For those who are about to take the plunge into pedagogy, here is a lifebelt. Use it! Ian Marcus Dyer was born in Dudley in 1949. After an education at Dudley Grammar School he went to Alsager College of Education for teacher training. He has taught in the Black Country throughout his career and is now working as a freelance supply teacher. His many interests include ornithology, hillwalking and music. He is married with two grown-up boys.
