(15) The shocks incident to ordinary freight train handling while running seldom cause damage in well-stowed cars. The shocks incident to switching are sometimes destructive. More care should be exercised in switching cars containing eggs. (16) While the haul in wagons or trucks between the railroad terminal and the warehouse or store may be responsible for some damaged eggs, the breakage is ordinarily not more than 1 cracked egg per case. (IT) By following good commercially practicable methods of packing, storing, and hauling, eggs can be transported in carlots with a total damage of less than 2 per cent. Under experimental handling, where the work is of a high grade, though still following the commercial routine, the total damage can be reduced to less than 1 per cent. o...
