Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from On the Naturalised Weeds and Other Plants in South Australia It is an historical fact that whenever man settles in a new country he not only carries the weeds that are most troublesome in cultivated ground along with him, but he also exercises a potent influence over the indigenous vegetation, especially when he engages in agricultural and pastoral pursuits. The plough, the axe, the flocks and herds, are enemies to the existing vegetation, and as cultivation advances each representant of the herbaceous flora, perennial and annual, succumbs to the foreign influence. But the plough, axe, and herds are not the sole destroyers of the native herbage, for with cultivation are introduced noxious weeds, and the new-comers, finding a suitable soil and climate, spread with alarming rapidity, and become possessors of the ground, ejecting the indigenous herbaceous plants, and taking their places. From the past and present constant intercourse with Europe and other parts of the world, and the abundant importation of seeds into Australia for agricultural and horticultural purposes, it is no wonder that a very great number of the weeds most troublesome at home are now naturalised in South Australia. Our temperate climate and soil suit their growth, and such atmospheric influences, as hot winds, unseasonable, c., do not check their spread. Another cause of their extension is to be found in the extent of unoccupied ground, which is alone sufficient to account for the predominance and migration of so many of the worst European weeds. Some of these, viz.: - The Cockspur, *Centaurea melitensis*, Linn.; the Bathurst bur, *Xanthium spinosum*. Linn.; the Scotch thistle, *Onopordon Acanthium*, Linn.; the Variegated thistle, *Carduus Marianus*, Linn.;...
